Date	Reading for **BEFORE** Class	Lecture Subject	Understanding Checks **BEFORE** LAB	Labs/Activities
1/27	None	Unit 0 - Course Introduction, Computers, Java Overview	None	Letters to Future Student Group Activity Ice Breaker (if time permits)
1/29	JJJ – Sections: 0.1, 0.2, 0.7, 0.8	Unit 1 - Programming & Object-Oriented Design Introduction	CYU 01	Lab Activity 01 - Object Analysis
2/3	JJJ – Sections: 1.1 - Introduction 1.2 – Designing Good Programs 1.3.1 – Problem Decomposition	Unit 2 - Object-Oriented Design & Programming Continued	CYU 01.5	Lab Activity 01.5 – Object Analysis Continued
2/5	JJJ – Sections: 1.3.2 – Object Design 1.3.3 – The Object's Interface 1.3.4 – Data 1.3.5 – Method's and Algorithms	Unit 3 - Object-Oriented Design & Programming Continued	CYU 02	Lab Activity 02 – Problem Analysis
2/10	JJJ – Sections: 1.3.6 - Algorithms and Pseudocode	Unit 4 - Object-Oriented Design & Programming Continued	CYU 03	Lab Activity 03 – Class Design
2/12	JJJ – Sections: **1.5.2 – Comments** 1.5.5 – Data Types and Variables **1.5.6 – Statements** **1.5.7 – Expressions and Operators** **1.5.8 – Class Definition** 1.5.9 – Declaring an Instance Variable **1.5.10 – Defining an Instance Method** **1.5.11 – Java Application Programs** 1.5.12 – Creating and using Objects	Unit 5 - General Programming Language & Java Language Elements	CYU 04	Lab Activity 04 – Algorithm Development - Algorithm to language element ID
~~2/17~~				

Date	Reading for **BEFORE** Class	Lecture Subject	Understanding Checks **BEFORE** LAB	Labs/Activities
2/19	Re-read non-bolded sections above Review the Test 1 Standard	Unit 6 - Java Language Elements Continued… **Test 1 Review**	CYU 05 & CYU 06	Lab Activity 05 – Minimum Java Program
2/24	JJJ – Sections: 1.7 - From the Java Library: System and PrintStream 2.7 - From the Java Library: java.util.Scanner	Unit 7 - Online Development Environments Unit 8 - Standard I/O	CYU 07	Lab Activity 06 Java Intro Lab Activity 07 Online IDEs
2/26	**Test 1**	**Units 1- 5**		
3/3	JJJ – Sections: 2.2 – Using String Objects	Unit 9 - Intro to String Objects + Variable Review	CYU 08	Lab Activity 08 Standard I/O
3/5	JJJ Sections: 2.4 – Class Definition 2.5 – Case Study: Simulating a Two-Person Game	Unit 10 - Class Definition, Object Instantiation, and Class Diagramming	CYU 09	Lab Activity 09
3/10	JJJ Sections: 3.1 – Introduction 3.2 – Passing Information to an Object 3.3 – Constructors 3.4 – Retrieving Information from an Object 3.5 – Passing a Value and Passing a Reference	Unit 11 - Methods and Parameters	CYU 10	Lab Activity 10 Simple Game Design and Program Tracing
3/12	JJJ Sections: 3.6.1 – The Simple If Statement 3.6.2 – Relational Operators 3.6.3 – Compound Statements inside Ifs 3.6.4 – The if-else Statement 3.6.5 – The Nested if/else Multiway Selection Structure Review the Test 2 Standard & Coding Practice	Unit 12 - Control Structures - Selection (if-else) **TEST 2 REVIEW**	CYU 11	Lab Activity 11 Method and Parameter Usage
~~3/17~~				
~~3/19~~				

Date	Reading for **BEFORE** Class	Lecture Subject	Understanding Checks **BEFORE** LAB	Labs/Activities
3/24	JJJ Sections: 3.6.6 – The While Structure 3.7 – Testing an Improved OneRowNim	Unit 13 - Control Structures – Repetition Intro (while loop)	CYU 12	Lab Activity 12 Selection
3/26	JJJ Sections: 4.6 – From the Java Library: java.io.File and File Input	Unit 14 - File I/O	CYU 13	Lab Activity 13 Repetition 1 and Game Update
3/31	**Test 2**	**Units 6 - 11**		
4/2	JJJ Section: 5.1 – Introduction 5.2 – Boolean Data and Operators 5.4 – Using Booleans in OneRowNim	Unit 15 - Data Types and Operators - Booleans	CYU 14	Lab Activity 14 File input/output
4/7	JJJ Sections: 5.5 – Numeric Data and Operators Intro 5.5.1 – Primitive Numeric Types 5.5.2 – Arithmetic Operations 5.5.3 – Promotion 5.5.4 – Precedence 5.5.5 – Increment and Decrement 5.5.6 – Assignment Operators 5.5.7 – Relational Operators 5.6 – From the Java Library: java.lang.Math	Unit 16 - Data Types and Operators- Numeric	CYU 15	Lab Activity 15 Data Types and Operators - Booleans

Date	Reading for **BEFORE** Class	Lecture Subject	Understanding Checks **BEFORE** LAB	Labs/Activities
4/9	JJJ Sections: 6.2 – Flow of Control: Repetition 6.3.1 – Counting with While 6.3.2 – Counting with For 6.3.3 – For Structure 6.3.4 – Loop Bounds 6.3.5 – Infinite Loops 6.3.6 – Loop Indentation 6.3.8 – Nested Loops 6.6.2 - Do While 6.10 - Switch	Unit 17 - Control Structures – Repetition (While Revisit, For Loops, Do While, and Switch)	CYU 16	Lab Activity 16 Data Types and Operators - Numeric
4/14	JJJ Sections: 7.1- Intro 7.2 –String Basics 7.3 – Finding Things 7.4 –Example: Search	Unit 18 - String Processing	CYU 17	Lab Activity 17 Control Structures
4/16	JJJ 7 7.6 – Retrieving Parts 7.7- Example 7.8.6 – Misc String Methods 7.9.2 - Object Identity Versus Object Equality Review the Test 3 Standard & Coding Practice	Unit 19 - String Processing **Test 3 Review**	CYU 18	Lab Activity 18 - String Processing
4/21	JJJ 7 9.1 – Intro 9.2 – 1D Arrays 9.3 – Simple Array Examples CS Awesome 6.1 – Array Creation and Accessing 6.2 – Traversing Arrays	Unit 20 - Arrays	CYU 19	Lab Activity 19 - String Processing

Date	Reading for **BEFORE** Class	Lecture Subject	Understanding Checks **BEFORE** LAB	Labs/Activities
4/23	Programmed Lessons CHAPTER 61 — Common Array Algorithms (programmedlessons.org) JJJ 9 9.9.3 – The java.util.Arrays.sort() Method	Unit 21 – Array Algorithms & Test Review	CYU 20	Lab Activity 20 Array Introduction
4/28	**Test 3**	**Units 8,12 - 17**		
4/30	Programmed Lessons CHAPTER 63 — Arrays as Parameters (programmedlessons.org) String[] args (programmedlessons.org) Command Line Arguments (programmedlessons.org) JJJ 9 9.7 – 2D Arrays	Unit 22 - Arrays	CYU 21	Lab Activity 21 Arrays
5/5	Programmed Lessons ArrayLists and Iterators JJJ 9 9.10 – From the Java Library: java.util.ArrayList	Unit 23 - ArrayLists	CYU 22	Lab Activity 22 Arrays
5/7	Review the Test 4 Standard & Coding Practice Guide	Test Review	CYU 23	Lab Activity 23 ArraysLists
5/12		Test Review		
5/14	Final Exam	Units 18-23
